

Welcome to Fresno Women's Medical Group!

We would like to draw your attention to the enclosures in this packet and ask that you take the time to read and complete them prior to your first visit.

- Please fill out the Patient Medical History form prior to coming to our office. This will facilitate your being seen in a timely fashion.
- Please read and sign the Office Policy form.
- Please bring your insurance information to your visit. If you do not have health insurance, please be prepared to pay the full amount at the time of service.

It is most important that you keep the appointment scheduled for you. As a courtesy to other patients, we request that cancellations be made 24 hours in advance. If you miss an appointment without cancellation, you will be charged the basic fee for the scheduled visit. This charge is not paid by your insurance company.

We are here to serve you. Your assistance in these matters greatly facilitates our ability to care for you and other patients in an effective and personal manner.

We are grateful that you have selected Fresno Women's Medical Group for your obstetrical and gynecologic care.
